About us

Welcome to MM Group! Led by Marcin Markiewicz, our small experienced team specializes in high-quality. Our products are crafted in Poland by trusted manufacturers, ensuring unmatched quality and competitive prices. We are dedicated to providing exceptional service and transforming spaces with our expertly made-solutions. Our solid reputation is built on our excellent customer service and genuine approach. We have been building the trust of our customers for many years and aim to continue to do so with steel doors, windows, mirrors, window blinds and other furniture.

What we offer

We offer standard hinge doors (scharnierdeuren), sliding doors (schuifdeuren), and pivot doors (taatsdeuren). All our doors are customized to the client's specifications and made to order. They are highly protected against corrosion with powder coating and feature safety glass in all variants. All mechanisms such as hinges are of the highest quality. The doors can be divided into any number of sections and customers have the freedom to choose any type of handle. We are also able to create various types of arches and other shapes according to your wishes. In simple words, your design dreams are possible with us! Our extra services include product visualizations, transport and installation as well as professional measuring service at your house and an honest advice to make sure you feel comfortable with your choices. Delivery time is approximately 6-8 weeks. Additionally, we can match railings, barriers, and handrails made from steel, using the same profiles.

Our different door models
